Demand for open source Integrated Assessment Modeling

Oleg Lugovoy

Open Energy Modelling Workshop
October 27-28, Milano 2016
Integrated Assessment Modeling

Energy and environment decision making

- Bottom-Up reference energy system models
- Top-Down economic growth models
- Top-Down general equilibrium models
- Agriculture, forestry, and land use models
- Water resources use and contamination models
- Air pollutants dissemination models
- Health impact models
- Climate change models
